SPRING SEMINAR & AGM

Fire Flood & Finance: Surviving In Difficult Times

Friday 6 May 2011

Milestones Museum
Basingstoke

Our spring seminar tackles the difficult and topical issue of disaster planning. Many museums and heritage railways have disaster or emergency plans to cope with calamities like fire and flood and the day will include a presentation from Harwell Disaster Recovery services, two recent case studies and a session dealing with the challenges of working with insurers. In the current uncertain financial climate, members will also have the opportunity to debate some of the other business-linked risks associated with running heritage organisations that might threaten their livelihoods
